PROFESSIONAL SUMMARY

Front-end Developer with hands-on experience building real-world web applications using React, TypeScript, and Next.js. Skilled in developing responsive interfaces, reusable component systems, interactive dashboards, and type-safe applications, with practical experience integrating REST APIs, managing application state, and working with Supabase. Experienced with Git/GitHub and modern frontend development workflows, with a strong focus on clean, maintainable code and thoughtful UI/UX implementation. Completed formal software development training at Start Innovation Hub and continuing to expand into backend development through independent projects and hands-on learning. Open to Frontend Developer, React Developer, Next.js Developer, and Web Developer opportunities.

WORK HISTORY

Feb 2024 - Current
Front-End developer
- Uyo, Akwa Ibom state, Nigeria

- Utilised jQuery to streamline HTML scripting, simplifying client-side scripting.
- Optimised web pages for maximum speed and scalability, improving overall usability.
- Utilised Git and GitHub for version control whilst working in a team environment.
- Led front-end testing during the development stages to identify bugs early on.
- Generated user-friendly interfaces by utilising HTML, CSS and JavaScript.
